

Managed Security Operations Center (SOC)

enVista's SOC manages people, processes and technologies involved in providing situational awareness through the detection, containment and remediation of IT threats. enVista's SOC manages incidents for the enterprise, ensuring they are properly identified, analyzed, communicated, actioned/defended, investigated and reported. The SOC also monitors applications to identify a possible cyber-attack or intrusion (event) and determine if it is a real, malicious threat (incident) and if it could have a business impact.

SOC services include:

Security Monitoring

- Real-time monitoring
- Proactive hunting
- Alert analysis and triage

Incident Response

- Incident Investigation
- Active consulting on containment, eradication and remediation
- Malware analysis

Threat Intelligence

- Tactical
- Strategic
